SUMMARY

Experienced Full-Stack Software Engineer with **5 years** of hands-on experience in designing, developing, and deploying scalable web applications and enterprise systems. Strong expertise in both frontend and backend development using modern JavaScript frameworks (Vue.js, Nuxt.js, React.js, Next.js) and robust backend stacks (Laravel, Node.js, NestJS). Proven ability to lead cross-functional teams, architect efficient solutions, and deliver high-quality software in fast-paced, agile environments. Adept at leveraging DevOps tools and cloud infrastructure to optimize application performance and deployment.

Technical Skills

- **Languages:** PHP, JavaScript.
- **Frontend:** VueJS, NuxtJS, ReactJS, NextJS, TypeScript, Tailwind CSS, Vuetify, Bootstrap, Ant Design, DaisyUI, Pug.
- **Backend:** Laravel, NodeJS, NestJS.
- **DevOps & Tools:** Docker, AWS, Cloudflare, Heroku, Git, Google Analytics, Pusher.
- **CMS & UI Design:** Strapi CMS, Figma.
- **Databases:** MySQL, MSSQL.

WORK EXPERIENCE

Dayone Software Technology Ltd (Full-time Official)   March 2024 - Aug 2025

Position: Lead Engineer

Frontend team management with full-stack collaboration, DevOps deployment support, code review, and technical ideation

QASOFT Solution (Full-time Official)   March 2021 - March 2024

Position: BOD │ Full Stack Engineer

Technical leadership and end-to-end project management: from client consultation, requirement analysis, solution design to full-stack implementation and development team coordination

NEC Vietnam Co Ltd (Full-time Onsite)   June 2023 - Dec 2023

Position: Frontend Developer

Specialized in frontend development, backend API integration, and UI/UX improvements

Pax Creation Co Ltd (Full-time Onsite)   Dec 2021 - June 2022

Position: Frontend Developer

Developed responsive web interfaces, implemented API integrations, and optimized user experience design

PROJECTS

Multi-Platform Gaming Web Application   March 2024 - Aug 2025

Frontend

- **Organization:** Dayone Software Technology Ltd
- **Description:**
  - Multi-platform gaming web application targeting European markets with casino games, sports betting, and social gaming features. Built with Vue.js 3/Nuxt.js 3 supporting multiple domains and brands through unified architecture.
- **Responsibilities:**

- Designed scalable component-based architecture for multiple gaming domains
- Developed features for gaming management, sports betting, and social interactions
- Implemented multi-language support (13+ languages) and domain-specific configurations
- Optimized performance through lazy loading, code splitting, and caching strategies
- Integrated real-time features (live chat, notifications) and analytics systems

- **Technologies:** Vuejs, Nuxtjs, Laravel, TypeScript, TailwindCSS, Strapi CMS, Docker, Kubernetes, AWS, Cloudflare, Google Analytics, New Relic, Pusher, Twilio, i18n.

Misa   Jun 2023 - Jan 2024

FULL-STACK

- **Organization**: QASOFT Solution
- **Description**:

A comprehensive enterprise system for managing accounting, human resources, and business operations. The system includes multiple functional modules such as:

- An enterprise management system covering accounting, HR, orders, and asset management.
- Modules include debt tracking, inventory, tools, reporting, and integration with tax systems.
- Features a real-time dashboard to track work progress and order status across departments.
- Streamlines internal operations and task handling between accounting and logistics teams.

- **Responsibilities**:

- Developed features for both frontend and backend across various business modules.
- Built analytics dashboards for real-time task and order tracking.
- Implemented responsive UI and synchronized backend API data flow.
- Collaborated with QA and BA teams for testing, feedback, and final delivery.

- **Technologies**: Vuejs, Nuxtjs, Laravel, Vuetify, TailwindCSS, CSS, Pusher.

Motion Care   Jun 2023 - Aug 2023

FRONT-END

- **Organization**: NEC Vietnam Co Ltd
- **Description**:

- AI-based health monitoring system where users record posture videos guided by the app.
- Frontend captures body key points (joints, limbs) and draws visual markers (dots/lines) over the body.
- Coordinates are sent to backend for analysis of health conditions and improvement suggestions.
- Used in physiotherapy, posture correction, and preventive care.

- **Responsibilities**:

- Built UI flow to guide users through motion recording sessions.
- Implemented canvas drawing (KonvaJS) for real-time posture tracking.
- Extracted and normalized coordinate data for backend consumption.
- Worked closely with AI/backend teams to visualize results and feedback.
- **Technologies**: Reactjs, Vuejs, NestJS, AntDesign, KonvaJS.

Shiftgate   Dec 2021 - Mar 2022

FRONT-END

- **Organization**: Pax Creation Co Ltd
- **Description**:

- Luxury imported car marketplace platform connecting buyers and sellers in Japan.
- Frontend provides advanced search filters by brand, price, year, and mileage with responsive design.
- Vehicle data and user interactions are processed through secure APIs for inventory management.
- **Responsibilities**:

- Built comprehensive UI/UX for vehicle browsing and detailed product pages.
- Implemented advanced filtering system and search functionality using Vue.js/Nuxt.js.
- Developed user authentication, registration flows, and member dashboard features.
- **Technologies**: Vuejs, Nuxtjs, Nestjs, HTML, CSS, Vuetify, Google Analytics.

EDUCATION

FPT POLYTECHNIC   Aug 2018 - Dec 2020

Major: Information Technology (Application Development)

GRADUATED

LANGUAGES

English: B2 (Upper-Intermediate) - CEFR Certified
Vietnamese: Native
